RO plant is provided inside the campus to supply water to the entire campus.

Green Audit-Santosh Deemed to be University

4.6 Rainwater Harvesting

The rainwater harvesting strengthens the water level of the campus through ground water recharging process

4.7 Awareness

Santosh Deemed to be university has placed Sign Boards and Instructions to save the water and use of Dustbin.

4.8 Waste Disposal & Waste Management

Waste disposal include the activities and actions required to manage waste from its inception to its final disposal. This includes the collection, transport, treatment and disposal of waste, together with monitoring and regulation of the waste management process.

Waste can be solid, liquid, or gas, each type has different methods of disposal and management. Waste management deals with all types of waste, including industrial, biological and household. In some cases, waste can pose a threat to human health. Waste is produced by human activity, for example, the extraction and processing of raw materials. Waste management is intended to reduce adverse effects of waste on human health, the environment or aesthetics.

Waste management practices are not uniform among countries (developed and developing nations) regions (urban and rural areas), and residential and industrial sectors can all take different approaches.

A large portion of waste management practices deal with municipal solid waste which is the bulk of the waste that is created by household, industrial, and commercial activity.

Green Audit-Santosh Deemed to be University

E-waste generated in the campus is disposed in scientific and eco-friendly manner. The below certificate represents the 423.45 kilograms of E-waste disposed in an eco-friendly manner

Green Audit-Santosh Deemed to be University

4.9 Water Management

Water conservation is a key activity as water availability effects on the development of the campus as well as on all area of development such as farming, industries, etc. Keeping this view water conservation activity is carried out.

SOURCES OF WATER

- Open Well water
- Bore water

4.10 Water Saving Techniques Adopted by SMU

4.10.1 Identify & fixing Leaks

The hidden water leaks can cause loss of considerable water and energy without anyone being aware of it. A small leak can amount to large volumes of water loss. Leaks become larger with time, and they can lead to other equipment failure. Fix that leaky pipe, toilet, faucet, or roof top tank to save considerable amount of money and water. The establishment of a leak detection and repair program would be a most
