Enhance Teaching Through Learning Management System

Medical Education Unit encouraged the faculty members to attend the webinar on 'Enhance Teaching through Learning Management System' which was held successfully on 15th June 2021. Around 56 faculty attended the webinar. Virtual classroom provides an opportunity for the students to explore and learn new digital tools and enhance their skills. As online teaching is beneficial in effective time management virtual classroom helps recreate a routine that keeps the students and faculties engaged and ensures that they continue to learn. Online classes allow for achieving lessons as well as recording the class. The workshop was fruitful and the faculty were encouraged to incorporate newer method of teaching and learning
