ARTS EVENTS

On 15th and 16th of December 2021, we had conducted the arts event in the college to highlight our students' creative ambition and to provide a chance to showcase their talents under the guidance of Dr Shivani Aggarwal (secretary) and Dr Sania Khan (joint secretary). The committee was in charge of embellishing and bringing out the hidden talents of young minds, by means of various competitions like rangoli making, origami, face painting, wall painting, poster presentation and shutter up.

RANGOLI

As quoted 'the beauty of any festival is rangoli' we started with the rangoli making competition. A diversity of themes was witnessed from the current pandemic situation of covid 19 as a tribute to our nation with the theme- Incredible India.

ORIGAMI

Amidst the heavy curriculum of a medical college, students were given a chance to revisit their inner childhood with a variety of artistic designs. Within the given time limit, students were able to exhibit a variety of designs with sophisticated ideas.

FACE PAINTING

"Nothing's cuter than painting faces while you paint the town", we moved on to our next event -Face painting.

WALL PAINTING

We displayed the entire corridor with wall paintings depicting a diversity of themes.

POSTER PRESENTATION

We had poster presentation to visually depict and communicate on the currently emphasized topic - Education and health -post pandemic

SHUTTER UP

Last, but not least, we had the shutter up competition to imprint and cherish the memories in the form of pictorial depiction from all the events that took place.

ACADEMICS EVENTS

EDUCATION IS NOT THE LEARNING OF FACTS
BUT THE TRAINING OF MIND TO THINK

The event had several competitions like quizzes and debates including fun activities like name the dummy, Medical dumb charades, Kya mai galat, scribble etc

Just a minute and debate were also conducted where participants expressed their firm views on the allotted topics, which surely gave the judges a very difficult time to judge.

With high exigent topics of just a minute - "life of a medical student" and for that of debate " euthanasia should be banned" each team executed the topics in an impressive and authentic way which indeed impressed the judges.

Quiz was conducted in 3 rounds- buzzer round, visual round and rapid fire round followed by an elimination round including basic questions from anatomy, physiology and biochemistry.

Events such as name the dummy were conducted in a way where dummy or mannequin parts were provided to the participants and were asked to stick the given chits on correct anatomical site within the given time limit.

Overall it was an overwhelming and unforgettable experience which can not be compiled in mere words.

FOCUS: STUDENT WELFARE

Mentor - Mentee Program

"A Mentor is someone who Sees More Talent and Ability Within You, Than You See in Yourself And Helps Bring it Out Of You"

Santosh Deemed to be University has established a mentor -mentee programme to provide guidance, motivation, emotional support and role modelling. Our mentors also help us to explore careers by setting goals, developing contacts and identifying resources along with regular meetings and follow-ups with students. Our mentors not only aid in professional growth of a mentee but also overall development of an individual to help us broaden our profession, to enhance the classroom experience resulting in successful learning and development.

Our college has been following this scheme for the past few years with 1:10 ratio allotting 1 teacher for 10 students. This ensures attention to each student individually when they need them the most and to bring up the best in them.

STUDENT REVIEWS

AURA 2021 was a dream come true for everyone. The motivation behind having Santosh Deemed to be University's very own festival was to provide a platform for all the students to showcase their talent in college itself, without having to go outside. We started working till late nights from September itself. This event has been totally managed by 100 odd members of different committees. AURA 2K21 has given us glorious memories. It was challenging to know to the standards I've to match up to. Having ambitions to lead and organize such fests myself, as Vice President I felt it necessary to completely commit to it. The fire that this event sparked among the students was palpable.

Dr Shruti Chaudhari
Vice President, 2021 - 2022
(Student committee of Santosh Deemed to be University)

Amidst the chilly winter season of Delhi/NCR there is something colourful and joyous that the students of Santosh Deemed to be University wait eagerly through out the year. A 3 days extravaganza for students and the faculty members that helps blow away the winter blues and makes our lives enthralling and happy. Aura as the name suggests brings a plethora of cultural, academic, sports activities not only for the students but faculty members as well to enjoy. A joyous competition of music and dance adds more vividness to the Aura. By the dusk as the sun goes down the enthusiasm and energy levels sky rockets cause the celebrities lit the stage alive and made every one groove to their beats students cherish.

AURA 2021 was a great success, it showed great efforts made by student and faculty. Food stalls were good. There was a Tarot card reader which attracted all students. Security was also good as no outsiders were allowed and everyone was given entry by their IDs. Students grooved to the DJ. At last I want to thank all the faculties for supporting us and giving the opportunity to conduct AURA.

Muskan Senger
MBBS (2018 - 2019)

Aura 2021 was an extravaganza that helped students of our college to bring out their creative aspect. It was a great opportunity for students to socialise and discuss life apart from the daily medical curriculum. AURA 2021 was a product of relentless hard work and planning put in by the leadership team and students of Santosh Deemed to be University which took over a month of preparation and execution. But in the end it turned out to be a mega success which I am really proud to be a part of.
